PROFESSIONAL SUMMARY

Aspiring Full Stack Developer and **Certified Software Engineering Professional** bringing hands-on experience in Java, Spring Boot, React, TypeScript, MySQL, and Microservices architecture through NIIT's Full Stack Development with GenAI Honours Program. Skilled in developing scalable web applications, REST APIs, JWT authentication, and responsive frontend interfaces. Experienced in building enterprise-style capstone projects using Spring Boot microservices, API Gateway, Eureka Service Discovery, Feign Client, and AI integrations. Strong understanding of the full software development lifecycle, database management, and modern frontend/backend development practices.

TECHNICAL SKILLS

Frontend	React.js, TypeScript, JavaScript, HTML5, CSS3, Bootstrap, Material UI
Backend	Java, Spring Boot, Spring Security, REST APIs, Microservices Architecture, Node.js
Database	MySQL, MongoDB, Hibernate, JPA
Tools & Tech	Git & GitHub, Maven, IntelliJ IDEA, VS Code, Postman, Swagger, JUnit, Mockito, Eureka Server, API Gateway, Feign Client, MySQL Workbench
GenAI	Prompt Engineering, LLM Integration, GROQ API Integration
Other	Data Structures & Algorithms, Advanced Java Streams & Lambdas, Salesforce Billing Operations, Advanced Excel & MIS Reporting

ACADEMIC PROJECTS

StayEase – Full Stack Microservices Rental & Booking Platform NIIT Full Stack Capstone Project

- Developed a full-stack rental and property booking platform for students, working professionals, travellers, and property owners using a microservices-based architecture.
- Implemented secure JWT authentication and role-based access control for Owners and Tenants.
- Built independent microservices for Authentication, User Management, Property Management, Booking Management, and AI Suggestions.
- Developed REST APIs for property listing, room management, booking requests, and booking approval workflows.
- Integrated Feign Client for seamless inter-service communication; configured Eureka Server for service discovery and Spring Cloud Gateway for API routing.
- Developed responsive React frontend with TypeScript and Material UI.
- Integrated GROQ AI API to provide intelligent area and location suggestions.
- Designed MySQL database schemas with Hibernate and JPA; performed API testing using Postman and Swagger, and unit/integration testing using JUnit and Mockito.

PROFESSIONAL EXPERIENCE

Business Executive | Porter India (MNC)

Sep 2021 – Feb 2026 | Mumbai

- Resolved 1,000+ monthly Salesforce billing issues while maintaining 99% operational accuracy.
- Developed Excel MIS dashboards that reduced reporting errors by 35% and supported large-scale transaction monitoring.
- Collaborated with multiple teams to improve billing workflows and enhance data accuracy.
- Managed high-volume operational activities with strong analytical and problem-solving skills.

Customer Service Executive | Teleperformance (MNC)

Jul 2019 – Aug 2021 | Mumbai

- Handled 200+ customer interactions daily with a strong focus on service quality and issue resolution.
- Achieved high customer satisfaction through effective communication and timely support.
- Improved resolution efficiency by streamlining support workflows and escalation handling.

EDUCATION & CERTIFICATIONS

Certified Software Engineering Professional

Jul 2025 – May 2026

Specialization: Full Stack Development with GenAI Honours Program

NIIT, Mumbai

Bachelor of Commerce (B.Com)

Jul 2022 – May 2025

Bhartiya Gramin Punaarachana Sanstha's College, Mumbai

ADDITIONAL INFORMATION
